

# SHAPE POLISHING

Shape Polishing can be undertaken via either our CNC machines or a hand-processing machine.

## Hand-Processing

The below table outlines the minimum and maximum sizes of shapes we can polish:

	Min (W)		Min (H)		Max (W)		Max (H)
Shape Top	150mm	x	350mm		1500mm*	x	1850mm*
Diameter	170mm	x	170mm		1850mm*	x	1850mm*

## Internal Radius

Internal radius must be no smaller than 60mm due to the wheel sizes – Please see CNC for details on smaller internal radius.

## Tolerance

Tolerances of +/-1mm apply to all products that are hand-polished.

## Disclaimer

For larger sizes, please see CNC section\*
